

## RESOURCE DEVELOPMENT COMMISSION

Our mission is to help local Covenant churches develop the resources they need to advance Christ's mission locally, regionally and throughout the world.

The way we do this is by **connecting** stewardship and finance leaders/congregations and business owners, **coaching** pastors and spouses, **communicating** about essential finance functions, changing legal requirements and best practices, **cultivating** healthy, proactive stewardship and financial management ministries, and **celebrating** local church and PSWC stewardship success stories!

Please contact your commission members for more information.
